What is Workers' Memorial Day?

Every year, working people and their organizations observe Workers' Memorial Day at the end of April to remember those who have gotten injured or died on the job and to renew our efforts for safe workplaces. Each year thousands of workers are killed and millions more injured or diseased because of their jobs. Respect for worker health and safety on our jobs is respect for us as workers! We need to make sure that worker health and safety rights are guaranteed to all, in all workplaces! This year we continue to renew our commitment to fight for safe jobs for all. Remember the dead; fight for the living!
