Hurricane Preparedness in Covid -19

Determine Your Risk

Hurricanes bring many hazards to U.S. coastlines and inland areas, including storm surge along the coast, inland flooding due to heavy rainfall, tornadoes, strong wind, rip currents and large waves.

While preparing for hurricane season, follow the latest health guidelines from the CDC and your local officials.

Develop an Evacuation Plan

Find out today if you live in a hurricane evacuation zone and determine who issues evacuation orders for your area. Plan for multiple options on where you would go and how you would get there. Leave immediately if ordered to evacuate and be sure to plan for your pets.

Find out if you live in an evacuation zone

Plan your route out

Follow evacuation orders

Plan for your pets

While preparing for hurricane season, follow the latest health guidelines from the CDC and your local officials.

Assemble Disaster Supplies

Make a list of items to replenish your hurricane supplies and begin to assemble them before hurricane season begins. Have enough food and water for each person for at least three days. Be sure to fill your prescriptions and have medicine on hand. Radios, batteries and phone chargers are also must-haves. Gas up your vehicle and have extra cash on hand.

Medicine

Batteries, Radio, Chargers

Complete a Written Plan

Writing down your plan will help you avoid mistakes when faced with an emergency and ensure everyone in your home is prepared for the next storm.

Have photo documentation of valuables

Keep your important documents together for quick access

While preparing for hurricane season, follow the latest health guidelines from the CDC and your local officials.

Get an Insurance Checkup

Check in with your insurance agency well before hurricane season. Remember that flood insurance must be obtained separately. Prepare your home and vehicles according to your policy. Know where your insurance documents are located and take them with you if you evacuate. Visit **floodsmart.gov** for more information.

Check with your agent

Keep your documents with you

Consider flood insurance

Know your policy

Strengthen Your Home

There is a lot you can do around your home to help protect it from hurricane winds. Well ahead of the approaching storm, trim trees on your property, get approved window coverings, collect loose outdoor items, secure all doors on your property, and find a safe location for your vehicle.

Secure all doors

Move your car to a safe location

While preparing for hurricane season, follow the latest health guidelines from the CDC and your local officials.

Help Your Neighbor

Many people, especially senior citizens, rely on the assistance of neighbors before and after hurricanes. Help your neighbors collect the supplies they'll need before the storm. Assist them with evacuation if ordered to do so or check on them after it's safe for you to head outside. You may need to adjust your hurricane preparedness plans based on the latest health and safety guidelines from the CDC and your local officials.

Help your neighbors prepare

Help your neighbors evacuate

While preparing for hurricane season, follow the latest health guidelines from the CDC and your local officials.

THINGS TO KNOW ABOUT

WHERE TO GET HURRICANE INFO

Television - Tune in to your trusted local news source.

Phone - Access mobile.weather.gov on your mobile phone and get Wireless Emergency Alerts.

Radio - Receive forecast information and news on your NOAA Weather Radio.

Social Media - Stay in touch with friends and family and receive updates from your trusted sources of information.

Computer - Access information from weather.gov, ready.gov and flash.org
